Francis Mwangi

Architecting High-Performance Multi-Tenant SaaS Platforms & Enterprise Solutions

PROFESSIONAL SUMMARY

Passionate Senior Software Architect with 7+ years of expertise in TypeScript, React, Node.js, PostgreSQL, Docker, and Cloud Infrastructure. Proven track record of scaling high-throughput applications and leading cross-functional engineering teams.

WORK EXPERIENCE

Lead Software Architect

CloudScale Technologies · Nairobi, Kenya

2022-01 – Present

Directing technical strategy and multi-tenant cloud architecture for fintech and SaaS platforms.

- % Architected multi-tenant SaaS platform handling 50,000+ active subscriptions.
- % Reduced AWS cloud compute costs by 35% through Redis caching and container optimization.
- % Spearheaded transition to TypeScript, Next.js, and automated CI/CD pipelines.
- % Awarded Technical Innovator of the Year 2023

Senior Full-Stack Developer

Apex Digital Solutions · Remote

2019-06 – 2021-12

Engineered high-performance web applications using React, Express, PostgreSQL, and GraphQL.

- % Developed micro-frontend architecture for core user dashboard.
- % Implemented OAuth2 / JWT authentication with strict role-based access control.
- % Delivered 12 client projects on schedule with zero critical post-release bugs

EDUCATION

Bachelor of Science in Computer Science

University of Nairobi · Grade: First Class Honors · 2015-09 – 2019-05

Focused on algorithms, software engineering principles, and distributed systems.

FEATURED PROJECTS

Multi-Tenant Portfolio & CV SaaS Platform

Demo

Complete SaaS platform supporting 20 profession-specific themes, AI document extraction, and custom subdomains.

Tech: React · TypeScript · Node.js · PostgreSQL · Prisma · Docker

Real-Time Financial Dashboard

Demo

High-frequency transaction monitoring system with WebSocket updates and custom charting widgets.

Tech: React · Recharts · Node.js · Redis · WebSockets
